

NEW YORK STATE SENATOR

Betty Little

Senator Little hails voter approval of Adirondack Propositions 4 and 5

BETTY LITTLE November 6, 2013

"I'm very gratified and very happy voters approved propositions 4 and 5, which are so important to families and businesses in the Adirondacks," said Senator Betty Little.

"Amending the State Constitution is not an easy process by design and both amendments reflected a very thorough and balanced approach that will help our economy and result in better recreational access important to tourism and protective of the environment.

"Yesterday's approvals were the culmination of great team work among many local, state, environmental and business leaders and partners, so credit goes to many but especially to those in Raquette Lake and the towns of Lewis and Willsboro who had so much at stake and persevered."
