MIXED MARTIAL ARTS

"Today's economic impact study of Mixed Martial Arts in New York State reaffirms the need to pass legislation to legalize MMA. My Senate colleagues have successfully passed this bill, which I have co-sponsored, every year since I have been in office. Once the legislature is back in session in January, it is my hope that the Assembly will bring this legislation to the floor. With an estimated \$33 million in new revenue for Upstate New York and \$68 million statewide on the line, the Assembly must take action on this legislation. To me, this is a no-

brainer. Bring it to the floor!"
