| ISSUE: **HEALTH, HEALTH CARE**

There is a new website (www.HealthLawHelper.org) that contains useful, accessible information for consumers with questions about the Affordable Care Act, or health care in general. The website was created by, and is sponsored by, Consumer Reports, a non-partisan, non-profit organization which has a well-deserved reputation for impartiality, honesty and accuracy – and should reassure www.HealthLawHelper.org visitors that the information is reliable. If you have health care questions, be sure and visit www.HealthLawHelper.org.
