Consumer Alert Regarding Target Information Breach

JOHN J. FLANAGAN December 20, 2013

| ISSUE: **CONSUMER PROTECTION**

Retailer Target has announced that data connected to about 40 million credit and debit card accounts was stolen as part of a breach that began over the Thanksgiving weekend. According to Target, if you used your credit or debit card in any of their stores, it is potential that your information was accessed.

If you see suspicious charges on your credit statement, report them to your credit card companies and call Target at 866-852-8680.

While the data breach did not affect online purchases, anyone who shopped at Target should pay close attention and any action that their bank advises to avoid credit card fraud and identity theft.

Target has posted more information on this issue and tips on how to protect yourself if you think you may be one of those affected – please use the link below.

And please take the steps needed to protect your identity.
