UTICA – Sen. Joseph A. Griffo today criticized the Sept. 11 Memorial’s board of trustees for charging \$24 to visit their newly erected museum.

“The Sept. 11 memorial and museum will be a place to honor the nearly 3,000 victims who lost their lives in the World Trade Center attacks and educate visitors on the impact this tragic event had on our city, our country and the world,” said Griffo. “I believe it’s important that everyone who wants to see the museum have an opportunity to do so.”

The senator continued: “Instead of the trustees examining ways to cut costs within their \$63 million annual budget, they decided to make admission to the museum one of the priciest in town. This will undoubtedly turn away many interested people who cannot justify such an exorbitant price.”

Senator Griffo noted that many national monuments and museums charge patrons either a small fee or nothing, and said admission to the 9/11 Museum should be free – with a suggested donation.

“I’d like to see the federal government step up, do what’s right and help defray the cost of making admission free,” said Griffo. “It’s the least they can do to preserve such an important part of our history.”
