

NEW YORK STATE SENATOR

Andrea Stewart-Cousins

Senate Democratic Conference Leader, Senator Stewart-Cousins' Statement on the Hydraulic Fracturing Decision

ANDREA STEWART-COUSINS December 17, 2014

| ISSUE: **ENVIRONMENT**

"I applaud Governor Cuomo for allowing the science regarding hydraulic fracturing to determine if drilling should be allowed in New York and I commend the experts at the State Department of Environmental Conservation and Department of Health for their diligent work on this matter. The Senate Democratic Conference has been a leader in the fight to protect our state's natural resources and New Yorkers' health and we are glad that Governor Cuomo's administration stands united with us in this effort."
