

NEW YORK STATE SENATOR

Thomas K. Duane

Senator Duane's Drill Watch

THOMAS K. DUANE May 28, 2012

Below please find a comprehensive list of articles, editorials, letters to the editor, press releases, testimonies and resolutions regarding horizontal drilling and high-volume hydraulic fracturing in the Marcellus Shale formation in and around New York State.

I have also provided links to environmental advocacy organizations that are working to ensure that this method of natural gas drilling does not proceed without adequate protection for our precious natural resources.

--Senator Thomas K. Duane
