

NEW YORK STATE SENATOR

Betty Little

Delicious potato chips in the making at Sustain Adirondack

BETTY LITTLE July 13, 2010

| ISSUE: **AGRICULTURE**

Senator Betty Little joined a contingent of state and local officials for a tour of three Franklin County agricultural businesses.

One of the stops was Sustain Adirondacks which makes a variety of products including potato chips. Sustain Brand products are locally sourced within 300 miles or less. That means a majority of ingredients come from local farms, products are processed by local hands and sales and profits benefit farmers locally.
