

NEW YORK STATE SENATOR

Michael F. Nozzolio

Geneva Water Project Groundbreaking

MICHAEL F. NOZZOLIO October 12, 2010

Senator Mike Nozzolio recently helped to break ground at the new modified water district in the Town of Geneva. The new water district, which will encompass parts of Braewood Lane, County Road 6, and Hastings Road, will provide much-needed municipal water to the residents of this community. Senator Nozzolio played a critical role in securing the necessary funding to establish this important project.
