

NEW YORK STATE SENATOR

Michael F. Nozzolio

Fairville Fire Department

MICHAEL F. NOZZOLIO October 19, 2010

Our emergency rescue workers put their lives on the line to protect their communities every single day. That is why it is important that we provide them with all of the equipment and tools necessary to protect us and their own safety. Recently, Senator Nozzolio met with the Fairville Fire Department at their open house to inspect their emergency equipment as well as their off-road rescue vehicle. ATV's such as the Fairville Fire Department's have been used all across the State to save lives in places where other rescue vehicles could not have reached.
