| ISSUE: **HOSPITALS**

Senator Ken LaValle (far left) was pleased to deliver \$50,000 in state funding to John T. Mather Memorial Hospital President, Ken Roberts, (2nd from right) for the purchase of a new cystoscope digital urology imaging system. The cystoscopy is being used to determine the cause of numerous symptoms and problems associated with the urinary tract. The system has improved care for urology patients, as well as patients with a wide range of other diagnoses.
