UPDATED Guide to Health Care Services Following the Closure of St. Vincent's Hospital

THOMAS K. DUANE February 1, 2012

Since St. Vincent's Hospital closed in April 2010, my office has been compiling and updating a guide to primary care providers that have increased capacity to serve the hospital's former patients and outpatient providers that have absorbed services formerly provided by St. Vincent's. I have heard from a number of constituents that finding the new providers and locations for these ambulatory services has been a challenge and I hope this document will be of assistance. This list has evolved over time and was substantially revised in August 2011 as a number of providers that had temporary offices in the O'Toole building established permanent homes in the community. Below you will find a link to a .pdf of the latest version of this list. You may also request a hard copy from my District Office at 212-633-8052.
