Statement From Senator Michael Gianaris Regarding State's Restoration Of Money To Keep Senior Centers Open.

I am glad we were able to restore this crucial money for our senior centers. For so many seniors these centers serve as a crucial lifeline to the outside world. Our seniors have done so much for us, the least we can do is make sure they have the ability to enjoy their golden years with respect and dignity.

The State Budget announced on March 27, 2011 has restored State human services funding which will help keep senior centers open.
