The Long Island Pharmacists Society, Inc. Address Problems of Prescribed Medicines

OWEN H. JOHNSON November 7, 2011

The Long Island Pharmacists Society, Inc. invited Long Island legislators to the Arthur Perlin Memorial Breakfast to thank them for their support in addressing the problems of prescribed medicines. Of major concern to the organization is the overprescribing of controlled drugs and their illicit use on the streets. The event took place at the Melville Marriott Long Island on August 24, 2011.
