State Senator John A. DeFrancisco has teamed up with other state, city and county officials to crack down on littering and raise awareness about the serious problem. During a press conference on July 16, 2012, it was announced that a recent cleanup of 690 between Teall Avenue and Thompson Road netted nearly three tons of trash. An ongoing campaign will focus on clean-up, enforcement and awareness, with the tagline "Litter: It Costs More

Than You Think." As part of this campaign, violators will be ticketed.
