Several hundred senior citizens from throughout Central New York attended Senator John DeFrancisco's annual Senior Fair at the New York State Fairgrounds on September 27, 2012. Nearly 90 exhibitors were stationed under one roof to provide seniors with valuable information on various programs and services. Local health professionals also offered free health screenings. Entertainment was provided by the Mickey Vendetti band. Senator DeFrancisco would like to thank all of the vendors who made this year's Senior Fair a success and all of the seniors who attended.
