Grant Helps Greece Add iPads to Elementary Schools

JOSEPH E. ROBACH October 23, 2012

| ISSUE: **EDUCATION, CHILDREN, YOUTH**

I am proud to partner with the Greece Central School District to put technology into the hands of Greece elementary school students. In an effort to increase students' access to, and understanding of, technology, the district recently purchased 30 iPads for each school serving grades 3-5. I was able to access educational funding for this program. In addition to Buckman Heights, iPad stations have been added to Brookside, Craig Hill, Lakeshore, Longridge, Paddy Hill, Pine Brook, and West Ridge Elementary Schools.
