Family Services at the Family Partnership Center

TERRY GIPSON July 24, 2013

Family Services at the Family Partnership Center provides some of the most important programs in the City of Poughkeepsie and beyond. Collaboration is key, and Family Services embodies this concept with their tenant partners. The 18 diverse programs all share a common goal, and work together to help the neediest in our communities. I fully support their efforts and I look forward to helping the organization better our community.
