[Please stop back for updated schedules]

These meetings are informal and set up to simply give us an opportunity to exchange ideas and share information on local issues, the legislative session or any other matter involving state government that concerns you.

We hope you can attend. But even if the schedule isn't convenient for you, we still encourage you to [contact us](#) at any time to share your opinions and suggestions for better government.

In addition to these community meetings, I've also posted an online "Community, Jobs and Economy Survey" to try to make it as convenient as possible to share your input on a range of the key challenges facing the Southern Tier and Finger Lakes regions, and all of New York State, including: private-sector job creation, government reform, education, health care, and many others.
