Autumn Lane Elementary School gets iPads

JOSEPH E. ROBACH February 24, 2014

| ISSUE: **EDUCATION**

As part of an ongoing initiative, students at Autumn Lane Elementary School in the Town of Greece will now have access to 30 iPads in the school's library. This new technology will help them prepare for testing and to meet district technology standards. I'm pleased to help secure funding for this project that will benefit all K-5 students in the Greece Central School District by providing them access to new technology. Many thanks to Superintendent Deane-Williams and Principal Potter for inviting me today.
