Senator Lee Zeldin (R,C,I—Shirley) was joined by local leaders and veterans on Thursday, April 3, 2014, to announce the continuation and expansion of one of his most significant legislative achievements to date: the PFC Joseph Dwyer PTSD Peer-to-Peer Veterans Support program.

The unique program, which provides our heroes with support and guidance to combat the effects of Post-Traumatic Stress Disorder (PTSD) and Traumatic Brain Injury (TBI), has served 450 Suffolk County veterans since its inception. Given its success, the 2014-2015 state budget has expanded the program to include 12 counties across the state.
