Middle Village, NY (May 2, 2014) – State Senator Joseph P. Addabbo, Jr. once again provided free mammogram screenings and clinical exams to his constituents.

In partnership with the American Italian Cancer Foundation, Multi-Diagnostic Services performed exams to women ages 40 and over on the Mobile Care Clinic in Middle Village.

“I’m happy to continue to provide services to the district,” Senator Addabbo said. “Getting these exams done are critical to maintaining good health, but they’re not always convenient to do regularly. That’s why we like to bring the Mobile Care Clinic through the area – because the test can come to you.”
