Head Start- Astor Services for Children & Families

TERRY GIPSON June 4, 2014

Thank you [Astor Services for Children & Families](#) for inviting me into one of your Head Start classrooms in the City of Poughkeepsie for your "Read-In." Promoting early literacy is important to growing our children's minds and it was wonderful to join this special group of children and dedicated staff. The more we do today for the education of our children, the better off our community will be tomorrow and for future generations.
