Summer Internships with DDC

BRAD HOYLMAN February 26, 2015

This summer, the NYC Department and Design Construction (DDC) will be running two internship programs designed for high school and college students interested in pursuing careers in architecture, engineering, building trades, public administration, business administration or information technology. DDC builds many of the civic facilities New Yorkers use every day. As the City's primary capital construction project manager, they provide communities with new or renovated structures such as firehouses, libraries, police precincts, courthouses and senior centers. For more information, internship applications and instructions for submission please see the flyer attached.
