

NEW YORK STATE SENATOR

Brad Hoylman-Sigal

Schedule a Legal Aid Training on Medicare & Medicaid Long Term Care Options

BRAD HOYLMAN March 25, 2015

New York State and the Federal Government have authorized a pilot program to establish the Fully Integrated Duals Advantage (FIDA) plans in New York City, Long Island, and Westchester. FIDA will impact how these vulnerable constituents access all of their medical services. The Legal Aid Society is part of the Independent Consumer Advocacy Network (ICAN) and has developed separate trainings for advocates and caregivers/community members. They will also provide an overview of all of the Medicaid and Medicare programs available to help constituents get care at home. Please contact Cynthia Hackett at cmhackett@legal-aid.org to schedule a free training before June 30, 2015, and for more information, see the letter attached.
