VisualDx Opens New Headquarters in Downtown Rochester

JOSEPH E. ROBACH June 29, 2015

| ISSUE: **ECONOMIC DEVELOPMENT, SMALL BUSINESS**

I was pleased to help Dr. Art Papier and VisualDx open its new headquarters in Downtown Rochester. Founded in 1999 by Dr. Papier, VisualDx is a team of physicians, educators, artists and computer scientists who have developed a web-based clinical decision support system to enhance diagnostic accuracy and improve patient safety. This new facility will allow VisualDx to continue to grow and expand in the Rochester region.
