

## High Tech Rochester Announcement

JOSEPH E. ROBACH September 9, 2015

I was excited to join local officials for the ground breaking of High Tech Rochester's Finger Lakes Business Accelerator Cooperative. HTR will occupy the 6th floor of the Historic Sibley Building and will assist high-tech startups, small businesses and entrepeneurs, with the hopes of creating more than 1,000 new jobs over the next fiver years! This is an exciting project for Rochester's economy and workforce.
