Senator Jack M. Martins (R-7th Senate District) recently visited Biener Audi in Great Neck for an event in support of Roslyn Rescue Hook & Ladder Company.

Biener Audi presented a CPR training unit to the Company. The units allow personnel to teach area residents the correct way to provide CPR, allowing those trained to save the lives of heart attack victims in need of immediate attention. Biener Audi is a member of the Greater New York Automobile Dealers Association (GNYADA) which administers the CPR donations on behalf of the National Automobile Dealers Association Charitable Foundation.
