

NEW YORK STATE SENATOR

Thomas F. O'Mara

Celebrating National Dairy Month throughout June ~ Thank you to our dairy farmers and farm families across the Southern Tier and Finger Lakes regions, and throughout New York State

THOMAS F. O'MARA June 1, 2016

| ISSUE: **DAIRY INDUSTRY**

New York State's dairy industry has earned its rightful place as one of America's best!

June is **National Dairy Month**.

It's an opportunity to pay tribute to the perseverance and the toughness of our dairy farmers and farm families who year after year, generation after generation, have kept their farms going in the face of enormous economic, fiscal and regulatory burdens and challenges.

New York State's dairy industry has earned its rightful place as one of America's best!

We can never forget that our farmers have long been and must remain the foundation of so many upstate, rural communities and economies across the Southern Tier and Finger Lakes regions, and statewide.

Thank you!
