Meeting Brooklyn's Energy Needs

JESSE HAMILTON June 30, 2016

| ISSUE: **ENERGY, RENEWABLE ENERGY**

Constructive meeting today with the Brooklyn Alliance for Sustainable Energy, the New York City Environmental Justice Alliance, the Brooklyn Movement Center, and further community stakeholders. We had an opportunity to discuss meeting Central Brooklyn's energy needs, the Brooklyn/Queens Demand Management Program, and possible solutions to the challenges ahead. I am particularly grateful we were able to discuss Brownsville, East Flatbush, and Crown Heights' energy needs and possible ways forward. Thanks to all the participants in the discussion.
