Financial Services that Meet New Yorkers' Needs

JESSE HAMILTON April 24, 2017

| ISSUE: **BANKING**

My pleasure to join the New York Credit Union Association for their government affairs conference today. Really important to hear the perspectives of all stakeholders and across the financial services industry so that we can be sure all New Yorkers have access to tools they need to meet their needs whatever their circumstances – whether buying a first home, starting a small business, saving for college, or preparing for retirement.
