Congratulations to all our honorees!

The Reflection of Hope Awards continue our tradition of shining a spotlight on the people and organizations whose work goes, all too often, unrecognized or underappreciated. The passionate advocates, caring professionals, dedicated educators, and selfless family members working to help New Yorkers deserve our gratitude. This luncheon and awards ceremony aims to demonstrate our collective appreciation for their tireless labors. It is my honor to join with colleagues and conscientious community partners to highlight these honorees,

celebrate their achievements, and encourage them to continue their work on behalf of our fellow New Yorkers.
