(Albany)- State Senator John J. Bonacic (R/C/I-Mt. Hope) applauded the inclusion of over \$50 million in an omnibus package that was approved today that would assist New York State residents who were impacted by floods near Lake Ontario earlier this year.

“I’m pleased that this funding was included in the omnibus package that will help residents who were impacted by this devastating flooding,” said Senator Bonacic. “I’ve seen firsthand the devastation that flooding can have on a community, and I certainly sympathize with the residents of the Lake Ontario region, and I know that this funding will make a difference.”
