Healthy small businesses means a healthy community!

Small businesses represent a vital part of our community, providing services, employing neighbors, and acting as good neighbors themselves. They have a stake in the success of our community, which is why I have a dedicated Small Business Advisory Committee. I want to be sure to take on board the ideas of the small business community and help connect them to the resources they need to succeed. I am happy to partner with the Brooklyn Chamber of Commerce and help bring information and resources right into our community.

Thanks to Brooklyn Chamber of Commerce President and CEO Andrew Hoan and Director of Chamber on the Go Luc Saint-Preux who joined us today, thanks to the entire Brooklyn Chamber of Commerce team, and thanks to all the small business leaders on Franklin Ave we met with today. Healthy small businesses means a healthy community!
