The Campus/One Brooklyn Engineering Pipeline in Brownsville

JESSE HAMILTON May 11, 2018

| ISSUE: **EDUCATION, TECHNOLOGY, ELEMENTARY & SECONDARY EDUCATION, COMPUTER SCIENCE**

Thanks to Kingsborough STEAM Instructor Michael Danza for teaching 3D design to the students at Brownsville Collaborative Middle School as part of The Campus/One Brooklyn Engineering Pipeline funded by our partner, Brooklyn Borough President Eric Adams.

We open the doors of opportunity in Brownsville when we put state of the art 3D printers in our schools and know-how in the hands of our youth. Thanks to all our partners in making his exciting learning adventure for our community's young people possible!
