It takes a village and that village begins with us!

We had an extraordinary celebration of our community's young people today at our Campus Graduation 2018. Would not be possible without the hard work and dedication of awesome partners. Thanks to Brooklyn Borough President Eric L. Adams, Digital Girl, Green Earth Poets Café, Mike Danza and the One Brooklyn STEAM Pipeline, and so many more

educators, artists, mentors, and community organizations. Truly, too many important figures to mention – thanks to everyone who made our serving more than 1,000 students in our second year of The Campus possible.

Though I cannot list all the many names of organizations and agencies involved in turning The Campus into a reality, you know who you are, and you know the amazing services you delivered to our young people. Congratulations to The Campus Class of 2018!
