Brownsville community welcomed Governor Cuomo for an important Vital Brooklyn update this afternoon. Vital Brooklyn's fundamental elements include investments in housing, workforce development, our schools as a base for services, health, wellness, and community empowerment – overall, a \$1.4 billion investment in our Brooklyn communities.

The comprehensive approaches Vital Brooklyn takes will serve our Central Brooklyn neighborhoods well – overall we want to work to make Brooklyn "a healthier, more equitable,

and more sustainable community" as Vital Brooklyn and these much needed investments
aim to do.
