

NEW YORK STATE SENATOR

Joseph A. Griffo

Statement from Senator Joseph Griffo

JOSEPH A. GRIFFO January 8, 2019

State Sen. Joseph Griffo, R-I-C-Rome, released the following statement today following his appointment as Acting Minority Leader of the New York State Senate:

“I respect Minority Leader Flanagan’s decision to seek treatment for alcohol dependency and join with my colleagues in praying for his recovery. Leader Flanagan has always been a selfless leader, putting his professional responsibilities, obligations and duties above his own needs and I applaud his courage in confronting this disease. It is now important for him to take the time to concentrate on his own well being and our conference supports him

completely in that effort.

In Minority Leader Flanagan's absence, I am honored to accept the responsibility of leading the state Senate's Republican Conference on an interim basis. Together, with the exceptional group of talented and committed Senators and staff, we will stay unified in crafting, presenting and advocating our vision for moving our great state forward."
