THOMAS F. O'MARA January 28, 2019

At a recent legislative hearing examining the governor's proposed budget, I raised the specter of state borrowing and debt, and particularly the burden being left to future generations of decision makers and, especially, taxpayers. Senator O'Mara offers his weekly perspective on many of the key challenges and issues facing the Legislature, as well as on legislative actions, local initiatives, state programs and policies, and more. Stop back every Monday for Senator O'Mara's latest column "From the

Capitol..."

This week, "Hold on to your wallets, New York"
