

NEW YORK STATE SENATOR

Alessandra Biaggi

Biaggi-Sponsored Bill to Mandate Charters Provide Feminine Hygiene Products Passed by Senate Today

ALESSANDRA BIAGGI February 27, 2019

| ISSUE: **PUBLIC HEALTH, PUBLIC SCHOOLS, CHARTER SCHOOLS, WOMEN'S HEALTH**

The Senate passed Bill S3125 today, confirming a mandate that public schools provide feminine hygiene products includes charter schools. Senator Alessandra Biaggi (D - Bronx/Westchester) was the sponsor.

Senator Biaggi said, "I commend the Governor's 'Women's Agenda' that, among other things, mandated in the 2018-19 budget that public schools provide feminine hygiene products.

"This bill we passed today is very simple. It solidifies and confirms the public health law includes charter schools in the aforementioned mandate. This is needed to make two things crystal clear: menstruation is a public health matter, and charter schools are public schools.

"Reinforcing these truths will help school-age girls and women who attend charter schools in my district, and throughout the state, to fully take part in their educational experience."
