LOCAL LEADERS ENCOURAGE RESIDENTS TO PARTICIPATE IN 'NATIONAL DRUG TAKE BACK DAY'

SUSAN SERINO April 26, 2019

POUGHKEEPSIE, NY –With 'National Prescription Drug Take Back Day' just around the corner, Senator Sue Serino and County Executive Marcus Molinaro recently came together at the new Dutchess County Law Enforcement Center's Safe Drug Disposal Box to encourage area residents to take part in the initiative and help keep dangerous prescription drugs off our streets.

The annual initiative, which takes place this Saturday April 27th, raises awareness about the importance of safely disposing of unused prescription drugs to prevent them from falling into the wrong hands or harming our environment. The local leaders encouraged residents to take advantage of 'spring cleaning season' by taking the time to go through their homes and properly dispose of unused, unwanted, or expired prescription medications.

"Far too often, prescription drugs end up in the hands of those who are not prescribed them," said Senator Sue Serino. "The 'National Prescription Drug Take Back Day' is a concerted effort to combat the opioid epidemic that has devastated far too many families here in our community and across our country. By taking the time to safely dispose of prescription medications, community members can play a direct role in helping to curb abuse, and this initiative goes a long way to raise critical awareness about the various secure drop-off locations available year-round throughout our community."

Dutchess County Executive Marcus J. Molinaro said, "It is all our responsibility to help curb the opioid crisis, the public health epidemic of our lifetime. Simply by cleaning out your medicine cabinet of old or no longer needed medications and safely disposing them at one of Dutchess County's many secure drop boxes, you can do your part to help keep controlled substances away from those who might abuse them. Our drop boxes are available year-round and National Prescription Drug Take-Back Day is a great opportunity for residents to become familiar with the location nearest them."

Over the past nine years, thanks to National Prescription Drug Take Back Day events, the National Drug Enforcement Agency (DEA) has collected nearly 11 million pounds of unused medication.
