

NEW YORK STATE SENATOR

Pamela Helming

A Statement from Senator Pam Helming on Funding for Lake Ontario's Resiliency and Economic Development Initiative

PAMELA HELMING October 23, 2019

"The infrastructure of our lake shore communities has been devastated by Plan 2014. Today's announcement represents a massive commitment by New York State to rebuilding and preparing for the future. We must invest in resiliency and harden our infrastructure to protect local residents and small businesses as we continue the fight to repeal Plan 2014. I appreciate the leadership of the Governor, my legislative partners, and the many local officials who stepped up and fought for this much needed funding."
