National Grid ends moratorium of service

SENATOR JOSEPH P. ADDABBO, JR. November 27, 2019

| ISSUE: **NATIONAL GRID, NATURAL GAS, ADDABBO**

I am thrilled to hear that National Grid has ended its self-imposed moratorium and will once again supply natural gas to my constituents and the rest of the downstate population. This is great news for anyone who was having issues getting their gas service as the cold winter months approach. As this had been a constituent-driven matter that my office staff and I have been working on for months, I am grateful that the efforts of the Governor and Nat Grid brought this situation to a positive resolution. I look forward to working with the Governor's office and Nat Grid as we move forward to ensure that all customers are provided the natural gas they need.
