December 17, 2019

BRONX, NY – Today, December 17th, Governor Andrew M. Cuomo signed legislation sponsored by State Senator Alessandra Biaggi ([S4990A](#)), requiring training with respect to Adverse Childhood Experiences (ACEs) for daycare providers.

State Senator Alessandra Biaggi (D-Bronx/Westchester) issued the following statement:

“Training in adverse childhood experiences will give daycare providers the important tools to identify trauma in the children they care for daily. Ensuring that a child is surrounded by adults who have an understanding of childhood trauma will make a positive difference for these children in the short-term by nurturing resilience, which will carry over into their adult lives.”
