

NEW YORK STATE SENATOR

Phil Boyle

Coronavirus Update

SENATOR BOYLE March 12, 2020

| ISSUE: **CORONAVIRUS, CORONAVIRUS UPDATES, CORONAVIRUS; PUBLIC HEALTH**

A recent update on the Coronavirus Pandemic

Each day I am contacted by my constituents with questions and concerns about the Coronavirus Pandemic. They, rightfully, inquire about what's being done on the state level to stop the disease and ways to prevent spread and infection. Please know that every day I participate in a conference call with Governor Cuomo's senior staff about the fast-moving situation and will share any relevant updates through social media. For today, please review

the attached link of recommendations from the Centers for Disease Control and Prevention (CDC) with helpful information on how to prevent transmission and infection of COVID-19.

CDC Recommendations
