

NEW YORK STATE SENATOR

Alessandra Biaggi

Team Biaggi Joins New York State Nurses Association to call on Montefiore Health System's to better prepare their hospitals for the surge in COVID cases.

ALESSANDRA BIAGGI November 20, 2020

Today Team Biaggi joined New York State Nurses Association to call on Montefiore Health System's to better prepare their hospitals for the surge in COVID cases. For the last nine months, our nurses have been in the trenches of the COVID-19 pandemic, putting their health on the line to care for our loved ones. As we approach a second wave of cases, it is critical that Montefiore do everything in its power to ensure their nurses have the resources they need to safely continue saving lives. I stand firmly with members of the New York State

Nurses Association in their demands for Montefiore to provide a proper supply of PPE, safe staffing, and effective ventilation for their nurses.
