

NEW YORK STATE SENATOR

Pamela Helming

Statement from Senator Helming: Governor Cuomo Should Resign

PAMELA HELMING March 11, 2021

The Governor has shattered the public's trust and should resign.

The Governor and his administration intentionally misled the public on the number of nursing home residents who died from COVID. The Governor faces multiple serious allegations of sexual harassment and misconduct. It is important that these federal and state investigations proceed and the reports be made public.
