A Statement from Senator Rob Ortt

ROBERT G. ORTT August 13, 2021

| ISSUE: **GOVERNOR ANDREW CUOMO; NURSING HOMES; IMPEACHMENT**

The decision from Assembly Democrats to suspend the impeachment investigation reeks of a shady deal to protect Andrew Cuomo.

At any point in the last six months, Democrats could have impeached our now disgraced Governor - but that would've required courage. Instead, they stalled and bought Andrew Cuomo all the time in the world, while they wasted millions of taxpayer dollars on their sham investigation.

Resignation is not accountability. The Democrats not only failed in their constitutional responsibilities - they failed the Governor's countless victims in nursing homes, brave

women who came forward to tell their stories, and those who believe in honest and transparent government.
