SAMRA G. BROUK August 23, 2021

| ISSUE: **COMBATING COVID-19, COVID-19 VACCINATION, FDA**

“This is a pivotal moment in our response to the COVID-19 pandemic. It is my hope that the Food and Drug Administration’s full approval of the Pfizer-BioNTech COVID-19 vaccine encourages anyone who has hesitated to get vaccinated. The spread of the highly contagious COVID-19 variants continues to pose significant risk to our families and vaccination is our best defense against them.”
