Addabbo comments on mobile sports betting rules

SENATOR JOSEPH P. ADDABBO, JR. November 24, 2021

“I give credit to the New York State Gaming Commission for their work in advancing the state’s mobile sports betting process ahead of schedule, including the completion and posting of the rules. As we complete each important step towards offering our residents a premier mobile sports betting product in New York, we must focus on getting the servers negotiated, so that they’re up and running at the approved casinos in order to take the first New York mobile sports bets for some time in January. I look forward to getting this anticipated operation off the ground and bringing New York successfully into the mobile sports betting arena.”
